SHOP			
Hazard	Who Might Be Harmed	Is the Risk Adequately Controlled, or is More Needed	Review and Revision
Slips , Trips & Falls	Everyone	Shop is located on is relatively flat land, any obvious holes will be filled if possible, any trailing cables will be contained and hidden if possible or marked and rubber ramps utilised to minimise trip hazard.	
Stock & Storage	Everyone	Stock is to be stored where possible away from public, if it does need to be stored in public space it will be contained and secured	
Shelving	Everyone	Risk of falling, will be secured where possible to tent structure or other means to prevent it tipping over	
Electrical items	Everyone	Cables and connections will be kept dry and checked regularly throughout the day. Majority of items will be turned off a and unplugged when the shop is unmanned	
Overcrowding	Everyone	The shop is a contained are a and can be come busy at peak times, if we become concerned then a quing system will be used to keep the flow of customers around the shop safe and uncrowded, queuing will be kept outside of the tent in the open where possible	
Lifting & Carrying	Everyone	Boxes and items can be heavy, care should taken when lifiting. Only do what is in your own ability safely and get help if needed. Care when lifiting, posture and position to do so safely.
